## **APPENDIX A**

### **Mr Ranson – Local Resident**

Thank you for the opportunity to present at this meeting.

I speak on behalf of a number of neighbours and local residents impacted by this application.

Whilst many of our concerns on previous applications have been addressed which we welcome such as the impact on the ancient oak tree, possible contamination and disruption to the small stream and visual impact not in-keeping with the current planning.

However there are still two key issues for us which remain unresolved:

Firstly, the scale and proximity to our property is less than the 20m stated and is closer to only 15m which will have a detrimental impact on the natural light we enjoy particularly in the winter months which will be adversely exacerbated by this development.

And secondly whilst windows have been removed from the side elevation the proximity of the rear windows will still be much closer and overlook our rear gardens and property.

In light of the above we suggest the development is too large and too close to the boundary and should be either scaled back or possibly a more practical solution to reposition away from the boundary.
